

GTA Meeting of 2020-01-06

NAIT - Ross: Before Christmas we attended a meeting with the NAIT Glazing School, the Dean of Construction, and the Academic Chair to promote the school in North Saskatchewan and Alta British Columbia.

They are making Videos to promote the school in those areas. We are also working on a mailing list on the PGAA website to notify all glass shop about the NAIT glazing school and encourage enrollments. The GTA has only 30/40 members but there are around 200 glass shops in the area that might need to have their apprentices trained. Please remember we need to support the School in order to keep it going, and avoid NAIT removing the program like they did with the Tiles and Painters school due to the lack of enrollments.

In September 2020 we will have a meeting at the Patricia School catered by the NAIT Culinary School. NAIT has been very supportive of the event and the School in general, they will also provide photography.

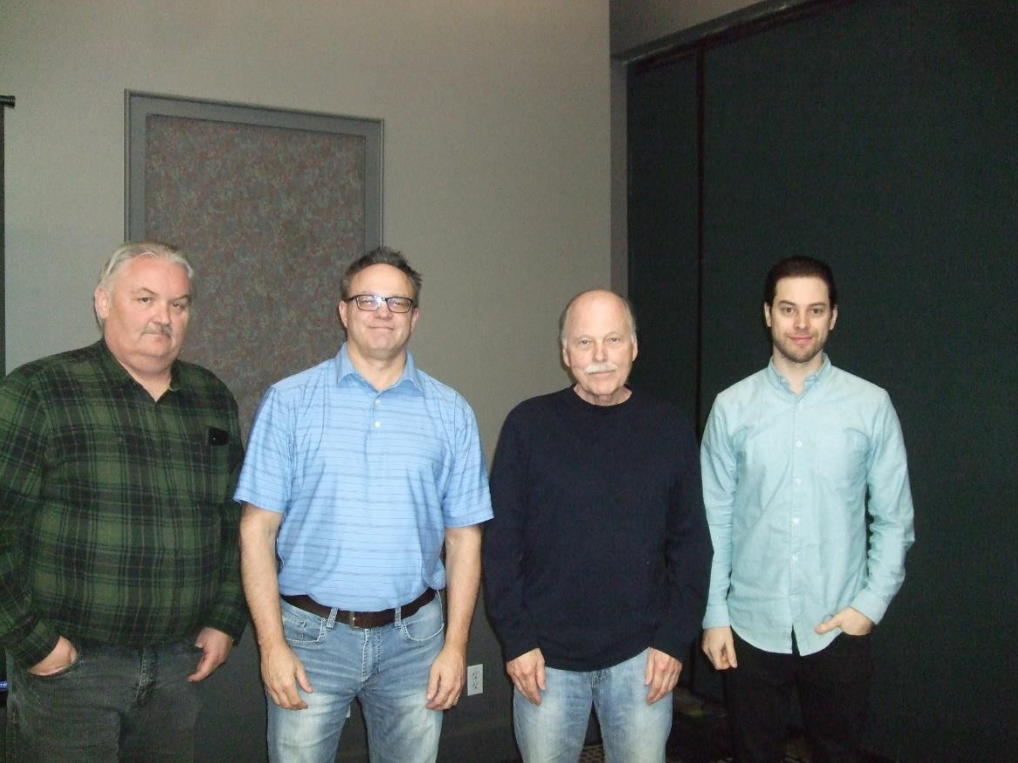

Apprentice Awards
